## ABOUT THE COVER

Since this is issue #12 of TARG ZINE, we thought we would get graphic designer extraordinaire Ken MacLaurin (AKA KJ MAXX!! our FreePlay Sunday Vinyl Rotation Engineer) to whip up a wicked cover that pays tribute to "Pinball Countdown" which was a 1977 animated segment on Sesame Street. Did you know the funky soundtrack was provided by The Pointer Sisters?

## ~~LOCAL~~ CLASSIC ALBUMS REVIEWED BY A MILLENNIAL by 15year old Felix

Hey Targians, do you ever get the feeling that some bands just keep re-hashing the same formulas over and over again? **MUNICIPAL WASTE**, **LICH KING**, **TOXIC HOLOCAUST** & **HAVOK** have spearheaded the Thrash Revival. The NWOBHM 2.0 is championed by the likes of **NIGHT DEMON** & **3 INCHES OF BLOOD** & old school hardcore punk gets paid homage by **OFF**.

Don't get me wrong, I love the old-school sounds but I occasionally wish I could hear something innovative, something that mixes genres in a unique way. This is exactly what **FLYING FORTRESS** accomplishes on **DIRTY RAIN**... a weird meld of speed metal, hardcore punk, stoner rock and psychedelic vocals, resulting in a fantastic album.

It kicks off with the title track, which rips through your mind and leaves you completely disoriented, and after its minute and a half of destruction you have no time to respond when the next track, **CASKETS**, goes on, and is even shorter, although perhaps not quite as aggressive. The track following these forgoes the speed (but not the quality) of the first two tracks, and is quite a bit longer at 4 minutes, being a solid stoner rock song to relax somewhat to, but it also has its heavier moments as well. Some of

the other exceptional tracks on this album include **ZOMBIE WAR**, a short and fast thrasher. **COLD DESIRES** is another slightly longer more stoner-ish track, but does its job very well.

During this entire album, whether it be during one of the longer tracks, or the explosions of hardcore influenced fury, bassist/guitarist **BRANDON WARS** is belting out melodic vocals, adding a unique flavour to this recording. His vocal performance is far from traditional metal or punk vocals.

The strength of **DIRTY RAIN** lies in its fusion of styles to form an album which doesn't really fit under any sub-genre. Similarly to **MOTORHEAD**, it's very hard to say whether **MOTORHEAD** makes punk rock, heavy metal, or just rock n roll. But just like **MOTORHEAD**, fans of all 3 genres will likely be able to find something they like about **FLYING FORTRESS**.

# A RECORD REVIEW OF MY NEW RECORD BY ME: B.A. JOHNSTON

Remember that song ACDC did about thunder or Back in Black or something and how it kinda sounded like their other song about Dirty Deeds or like TNT or something....

Well my new record **SHIT SUCKS** is kinda like that. Songs about dump bears and discounted garlic bread sounding

kinda like my songs about being a geriatric old man and ditties about my crappy cat. Not as good as **STAIRWAY TO HAMILTON** but not as bad as **THANK YOU FOR BEING A FRIEND**.

Seems as though I at least had the good sense to enlist a whose who of Canadian Music. Paid for by Mother's Bingo Winnings and the lure of Free Whoppers, (album was recorded on Whopper Wed), it has Mike Oneill producing (Inbreds), as well as Nathan Doucet (Crosss) and Adam Mowery (Grubbies) playing various instruments and crud on it. Which helps.

If you liked My old compact discs chances are you won't hate this one, If you hated my old compact discs you will probably still hate this one. You might not but it seems unlikely. You could still order it to see if you hate it but there are no refunds and then you would just be stuck with it, until you can unload it on your juggalo cousin you get as Secret Santa next Dec.

*I will give my new album 2.5 perogies out of 5.*

**HI TOM:** IT'S ONLY MARCH AND I'VE ALREADY GIVEN UP ON ALL MY NEW YEAR'S RESOLUTIONS. WHAT SHOULD I DO?  
– *Signed, Desperate2improve*

**Dear Desperate2improve:** Don't be so hard on yourself. By March, EVERYBODY has failed on their resolutions. I was going to become a vegetarian. I've had the House of TARG brunch with Kolbassa sausage for three weeks in a row! Let's face it - none of us are going to do our taxes, learn Japanese, or go to the gym. March is a time to forget those unrealistic New Year's resolutions and start aiming to accomplish stuff that actually matters. Now get to it! Good luck.

**HEY SLO' TOM:** ST. PATRICK'S DAY IS COMING UP. ANY ADVICE ON HOW TO GET THE MOST FUN OUT OF MY FAVOURITE HOLIDAY?  
– *Signed, Super Irish*

**Dear Super Irish:** I always confuse St.Patrick's Day and Canada Day. Which one do I wear a stupid hat and get drunk before noon?

**DEAR MR. SLO' TOM:** I HAVE A LARGE GROWTH ON MY FOOT BUT I DON'T TRUST DOCTORS. I'M ALSO WORRIED ABOUT ALIEN ABDUCTIONS, FLUORIDE IN THE WATER SUPPLY AND THE CIA PLAN TO ALTER THE MOON'S ORBIT. WHAT DO YOU THINK I SHOULD DO ABOUT MY FOOT? – *Signed, Shoeless Joe*

**Dear Shoeless Joe:** That foot sounds bad! I guarantee you that the growth has nothing to do with alien abductions, fluoridated water, or the CIA. It could be that moon thing but I doubt it. ANYWAY... come by the store (Spaceman Music 388 Gladstone) and I'll take a look at it. My medical background is limited, however one time in Calgary I removed a ball of tissue from a guy's ear canal and another time I took out some of my own stitches, so I can definitely help you. Hop on over! Ha! Get it?

# SKA JEFF'S HI FIVES

WE WOULDN'T HAVE MOST OF THE METAL WE KNOW & LOVE TODAY IF IT WEREN'T FOR PUNK. THINK OF THE INFLUENCE BANDS LIKE DISCHARGE, GBH & BAD BRAINS HAVE HAD ON METAL. THIS MONTHS HI-FIVE'S: THE BEST & WORST PUNK COVERS DONE BY METAL BANDS.

## #5 MEGADEATH

Covering Anarchy In The UK by THE SEX PISTOLS on their So Far, So Good... So What! album. Dunno whats worse; the cover or the music video they made for it?

## #4 THE MELVINS

Covering Youth of America by 70s Portland punk group, THE WIPERS. A perfectly weird match, for a perfectly weird band.

## #3 OVERKILL

Covering SUBHUMANS (Canada)'s Fuck You from their !!! Fuck You!!! EP. Very fitting as Overkill started as a punk band. Great cover!

## #2 ANTHRAX

Covering Protest & Survive by UK hardcore punk pioneers, DISCHARGE on Persistence of Time. The only Discharge cover I like by a metal band. Not sorry METALLICA.

## SEPULTURA

### #1 PUNK COVER BY A METAL BAND:

## SEPULTURA

covering Annihilation by one of my favourite punk bands, California's CRUCIFIX. This is a bonus track on their Nation's album. Amazing cover!

shots 6 times (when lit) until lighting the Monster Fish at the left spinner (or, more precisely, the Eject scoop at the end of that path, above the top lanes). This gets you OK points and unless you are a fabulous savant you will never get in the high scores solely by catching Monster Fish. So I encourage you to look past the boat and set your sights on Fish Tales' elusive multiball jackpots.

## MULTIBALL

The multiball itself is not terribly elusive. Starting it involves, simply, hitting the lock shot 3 (or 4, if you've completed a jackpot in the previous multiball) times. That's it. No complicated lighting locks or anything. The shot itself is slightly tricky but absolutely makeable. You can even hit it fairly reliably off reflex-shotting a ball launch (the immensely satisfying "Fast Cast").

The hard part is scoring jackpots once you're in multiball. You need to lock a ball, then hit the Eject scoop within 15 seconds (where you collect Monster Fish) to collect the jackpot. This is tricky and involves extremely controlled, precise

As winter begins its violent exit, we can turn our thoughts to hopes of spring and the great outdoors. Hunting! Fishing! Ultimate Frisbee! Or, for the more sedentary among us, playing pinball in a dark basement vaguely themed around the above activities. Fish Tales, a delightful little number from 1992. Read on, and discover the secrets of the deep sea!

There are two ways to play Fish Tales. The first way involves hitting alternating port and starboard boat

multiball play. Practice those cradle separations! Your goal in multiball should be to collect 3 jackpots, which is hard work but doable.

## OTHER TIPS

The other thing worth mentioning in Fish Tales is the center captive ball. The awards are quite valuable, especially the second Video Mode award, which awards an extra ball if played even reasonably well. Rock the Boat is a fun mode and will win you competition games, but will only give you incremental progress toward high scores when compared to Super Jackpots.

All the other stuff, like Bonus X, Fish Finder, and "stretching" fish is incidental to a good game. This makes a trap on the right flipper a little useless, because the only shot you want to hit is the lock. Get it to the left flipper however possible. You can post pass, but I generally just shoot the left boat shot. (Port, I think. I'm not exactly a nautical type dude.)

That's Fish Tales for you. Calm down during multiball, play carefully, and when you grind through enough jackpots you may find yourself on the high scores list. See you there!

## ABOUT THE MARCH PIN UP RADIODAZED ARE BACK FROM THE DEAD & NOW THEY ARE RANCID!

Yep, Ottawa Punks **RADIODAZED** are reuniting after years of dormancy to play a set of their fave **RANCID** tunes for the 90's Punk Cover Nite on Sat March 14 @ TARG. The band features Wizard Mark & his twin brother Matt. Check out their pin up on page 19 - they faithfully recreated the **RANCID** promo photo above with the help of Brunch Wizard Kelsea. It involved getting new tattoos & shaving side burns. Now that's Punk dedication!

DON'T FORGET ABOUT THE TARG RUSTIC BRUNCH  
EVERY SAT & SUN 11AM - 3PM

## **PISCES**

**(FEB. 19 - MARCH 20)**

Expect minor health issues the morning after your birthday: dry mouth, puffiness about the face, slow thinking, upset stomach and a giant headache.

## **ARIES**

**(MARCH 21-APRIL 19)**

An older friend or family member will give you some advice: pull down your pants and slide on the ice. Not very useful wisdom but take it as a sign that March is a good month for you to master the game ICE COLD BEER.

## **TAURUS**

**(APRIL 20-MAY 20)**

The key to winning is to cross the finish line first, but the art of failing is to be the first to laugh at yourself. Stop being such a pussy and try new things. Sure you will screw up but who cares? Play TARG - the most difficult game in the arcade. It will get you fully acquainted with losing and allow you to master defeat.

## **GEMINI**

**(MAY 21-JUNE 20)**

The smallest good deed is better than the grandest intention. Intending will get you nowhere but doing will bring you much reward... unless your intention is to be rewarded twice as much as your small deed & generate a profit, in which case your tactics are far more advanced than what the stars can provide.

## **CANCER**

**(JUNE 21-JULY 22)**

Nice astrological sign on ya. Talk about being born under a bad star. Your sign is a crab? ZOLTARG thinks you could use a drink. Hail an Elixir Wizard pronto.

## **LEO**

**(JULY 23 - AUG. 22)**

Call your friggin' parents already. They are worried sick about you and want to know what the hell you have been doing

with your life. Take some time out of your "busy" schedule and indulge them with your recent accomplishments. They will be delighted to hear about your Tetris high score and that your disappearing quarters have prevented you from doing laundry for the past 2 months.

## **VIRGO**

**(AUG. 23 - SEPT. 22)**

Slow down, you move too fast. Take some time to smell the tulips... well those don't bloom for another month so you will just have to settle for the olfactory delights of the OC Transpo #2.

## **LIBRA**

**(SEPT. 23-OCT. 22)**

Astrological forces are in sync with your sign this month & pure luck is on your side. In the near future you can expect to witness a totally hilarious video clip on America's Funniest Home Videos involving a piñata and a toddler bagging an adult with a plastic bat. March is a great time to be you.

## **SCORPIO**

**(OCT. 23-NOV. 21)**

A life changing event will take place on an undisclosed date and it might make things better or worse for you. Not much to go on eh? Well that's what you get for being so vague when ordering pizza with a group. "Oh I like all

the toppings, it doesn't matter to me... oh, except mushrooms and ...". Stop it. You are driving ZOLTARG crazy.

## **SAGITTARIUS**

**(NOV. 22-DEC. 21)**

Keep everything you do out in the open to avoid being accused. Remember whoever smelled it dealt it & whoever deny it supply it. Don't get caught downwind of controversy, develop an exit strategy.

## **CAPRICORN**

**(DEC. 22 - JAN. 19)**

Approach March with extreme caution. Lunar forces will interfere with your ability to keep track of your personal possessions. You lost your wallet twice last month and your keys the month before that. Dude, you don't need ZOLTARG to tell you that you will misplace something soon.

## **AQUARIUS**

**(JAN. 20 - FEB. 18)**

Aqua-people, or whatever you guys call yourselves, are notorious for exhibiting behaviour that some people occasionally find annoying, BUT don't bother to change my friend... there is always someone out there who is willing to forget you just the way you are.
